

Quality, Environment and Safety Policy

The General Management of CONSTRUCTORA OBRAS Y SERVICIOS AC7, S.L, establishes and distributes this Quality, Environment and Safety Policy, in order to consolidate and improve the Integrated Management System at all levels of the organization.

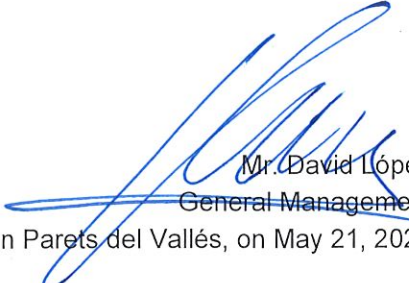

This policy is established for the following purpose and context:

Activities for the construction of industrial and residential buildings, facilities and civil works.

For this, the following commitments are adopted, which support the Strategic Management of the organization:

- ◆ Achieve the sustainable development of the company, making it an economically viable entity, socially beneficial and committed to protecting the safety and health of its Workers, committing itself to protecting the environment and developing actions that guarantee continuous improvement.
- ◆ Minimize the impact of the activity by controlling significant environmental aspects, rational consumption of natural resources and reducing the waste generated, in order to prevent pollution.
- ◆ The minimization and / or elimination of hazards and the control and reduction of the occupational risks, accidents and incidents, in order to prevent damage and deterioration of the health of workers.
- ◆ Define a space and workplace that guarantees the safety and health of all Workers, in order to prevent work-related injuries and deterioration of health.
- ◆ Ensure consultation and participation of workers.
- ◆ Know, measure and analyse the degree of satisfaction of our clients and their expectations, in order to offer a high-quality service.
- ◆ Comply with current legal regulations and applicable legal requirements, as well as other requirements that the Organization subscribes with clients, suppliers, associations and society in general.
- ◆ Transmit and demand from all the interested parties of the company those requirements of quality, environment and prevention of occupational risks that are applicable to them in order to achieve, at the origin, a greater control of the impacts.
- ◆ Know the latest technological advances.
- ◆ Develop training, information, participation and awareness programs for all AC-7 persons in order to create a highly qualified and participatory staff in the Integrated System, getting this way, not only reducing but also avoiding non-conformities.
- ◆ Plan the Integrated Management System so that risks and opportunities are identified to ensure that the expected results can be achieved as well as the continuous improvement.

For all this, the General Management of CONSTRUCTORA OBRAS Y SERVICIOS AC7, S.L, undertakes to make this Quality, Environment and Safety Policy available to all interested parties. Likewise, it will ensure its communication, understanding and application within the same organization.

Mr. David López
General Management
